Overview

Purpose

Our platform will offer real-time help through live chat, phone, and video services staffed exclusively by background-checked, credentialed experts. By prioritizing encrypted, view-only screen sharing over invasive remote control, we ensure users always stay in the driver's seat.

Audience

The intended audience is those that are over the age of 50 or are prone to fall for scams related to technology assistance.

[About](#)

OUR MISSION: Putting Humanity Back into Tech Support

We founded VerifiedSupport because the internet has become a scary place for everyday users. We rescue people from redirects and fake helplines, offering a safe haven of certified tech experts.

THE VERIFIED PROMISE:

- 100% Domestic, Background-Checked Technicians
- Zero Third-Party Software Downloads Required
- Full Transparency: You see our faces, names, and badges

MEET YOUR EXPERTS:

Sarah J.
CompTIA A+
ID: #48291

David K.
Network Tech
ID: #99201

Elena R.
Apple Cert.
ID: #11048
